

IP67 Lighting Transformer

- Custom designed in partnership with a leading European manufacturer
- IP67 rating – Fully waterproof and weatherproof.
- Totally encapsulated in resin
- Mains and low voltage 1 meter H05 fly leads
- Self-resetting thermal cut-off to protect against overload
- Dimmable from power source on both leading and trailing edge systems
- Easy locating on walls, fence posts, stakes or even buried.

Part Number	Rating (watts)	Width mm (Excl. fixing lugs)	Length mm	Height mm	Weight Kg
T-50	50	75	45	60	0.8
T-100	100	85	85	70	1.8
T-150	150	90	100	80	2.7
T-200	200	105	110	90	3.8
T-300	300	105	110	90	3.8

NB: A fully weatherproof joint should connect the cables: We recommend our self adhesive Heat-Shrink or an external weather-proof junction box that can be supplied by your electrician.
