

HUNZA LIGHTING BY LIGHT IDEAS

Light Ideas introduce the Euro Spot to their range of high quality handmade low voltage lighting. Suitable for mounting on timber, masonry timber and stone, the Euro Wall Spot is available in both solid copper and 316 stainless steel. The fully adjustable head allows 360 degree rotation and is water resistant. The fitting utilises the MR11 light source creating a discreet luminaire. An integral 240-volt transformer (Retro™) option is available.
